

Internal Medicine

RESIDENCY PROGRAM AT
**Corpus Christi
Medical Center**

To protect the quality of care we provide patients and the safety of our workplace, we are committed to a work environment free of inappropriate drug and/or alcohol use.

Welcome to the Internal Medicine Residency Program at Corpus Christi Medical Center

The Internal Medicine Residency Program at Corpus Christi Medical Center is part of the HCA Healthcare Graduate Medical Education network. HCA Healthcare is the nation's leading provider of quality, patient-centered care. We are also the leader in graduate medical education, all brought together by a single mission:

Above all else, we are committed to the care and improvement of human life.

Total Salary	\$53,884	\$55,456	\$57,162

We are excited to share the many aspects of this program that make it an excellent training environment for future physicians. The primary objective of this three-year Internal Medicine Residency Program is to provide a well-organized, progressive program with emphasis on education over service.

Our program is located in sunny Corpus Christi, Texas where you will be exposed to varied and interesting pathology during your training. The clinical experiences are unique; this exposure to a wide range of academic and clinical settings will be invaluable as you plan the next steps of your career.

Our residents graduate as competent and adaptable physicians who have the skills to thrive in any situation, whether it be as a hospitalist, fellowship training or primary care.

One of the highlights of our residency program is the dual focus on academics and clinical skills. The internal medicine residents meet for didactic sessions daily. These sessions nurture academic curiosity and foster camaraderie among residents and faculty. In addition to our structured didactic and lecture sessions, our faculty are committed to teaching every day and take a special interest in the education of our residents. We have an outstanding collegial setting with a strong emphasis on resident wellness.

Our program also has a strong focus on community health as we partner with local clinics and a Federally Qualified Health Center (FQHC) to provide the residents with the opportunity to contribute directly to the health and well-being of Corpus Christi and its surrounding areas.

We are enthusiastic about the quality of our program and look forward to meeting you during the interview season! Check out our social media sites or contact us- we'd love to see you here.

Our Faculty

Jacqueline Phillips DO

Program Director

Dr. Phillips completed residency training at Jersey Shore University Medical Center. After residency she began her hospitalist career and became involved in resident education. Her focus on community health and primary care led her to work at a Federally Qualified Health Center. She emphasizes improving resident education, recruitment and retention to the area.

Karim Nooruddin MD

Associate Program Director

Dr. Nooruddin attended the University of Texas Medical Branch at Galveston - as a nephrology fellow. He is a Clinical Nephrologist and Academic Internist. He has a passion for clinical practice and holistic approach. He has a special interest in pathophysiology and reliance on clinician's expertise. His hobbies include listening to podcasts, reading journals, traveling, and cooking.

Christina Rawana DO

Dr. Rawana completed her IM residency at Christiana Care/Jefferson Medical Center in 2016. Since then, she has worked as a Hospitalist. She is active in scholarly activity inpatient arena. Given her enthusiasm for teaching, she recently joined the teaching faculty at CCMC. Outside of the hospital, she engages in self care by actively attending spin classes, yoga and traveling.

Sudhakar Papineni MD

Dr. Papineni attended to Osmania Medical College, University of Health Sciences. Since September 2005, he has been practicing as a hospitalist and been actively involved in the residency program. His passions are teaching and gardening. His favorite Corpus Christi hobby is fishing.

Adriana Pop-Moody MD

Dr. Pop-Moody attended Wayne State University in Detroit, Michigan as a rheumatology fellow. Teaching is a rewarding experience to her—being engaged in enriching knowledge, which materializes into better patient care. She enjoys the ocean breeze, swimming, sunbathing on the beach and riding the waves of the bay on her kayak.

Mikhail Shipotko MD

Dr. Shipotko went to I.M. Sechenov First Moscow State Medical University. Since 2017, he has practiced as a hospitalist and taught medical residents. He is passionate about high—value patient care and enjoys helping residents develop clinical reasoning skills. He loves to travel, hike, meditate and attend live music concerts.

HCA Healthcare Corpus Christi Medical Center – Bay Area Internal Medicine Program

Our Mission

Above all else, we are committed to the care and improvement of human life.

About our Program

We are an ACGME accredited Internal Medicine program located in Corpus Christi, Texas. We accept 6 new residents each year. The resident will develop the skills and competencies necessary to practice in a primary care setting, to practice as a hospitalist, or to enter subspecialty training with confidence. The rotating services provided include all inpatient and ambulatory care departments. The primary objective of this three-year Internal Medicine Practice Residency Program is to provide a well-organized, progressive program with emphasis on education over service.

About our Hospital

Corpus Christi Medical Center (CCMC) is a 631 licensed bed hospital with more than 650 of the regions most talented doctors, and over 1,500 employees. Annually, CCMC has 20,000 inpatient admissions, 95,000 ER visits, and 5,000 deliveries. We proudly provide resident physicians with a diverse clinical training experience necessary to advance their fundamental clinical skills and prepare them for their future careers.

About HCA Healthcare GME

HCA Healthcare is a comprehensive healthcare network with over 275,000 colleagues across more than 2,000 care facilities all committed to creating a positive impact every day. We continually invest in our colleagues and facilities to better serve our patients and local communities. The Graduate Medical Education (GME) programs seek to inspire tomorrow's physicians to care for and improve human life by focusing on patient-centered approaches to practicing the latest evidence-based medicine.

Scholarly Activity

HCA Healthcare Graduate Medical Education provides a critical link between vigorous scholarly activity and real-world patient care from a sophisticated data repository of more than 32 million patient encounters each year.

2,500+ HCA Healthcare GME scholarly activities in 2020-21.

Clinical Training

Each year approximately five percent of all U.S. hospital services happen at an HCA Healthcare facility, including:

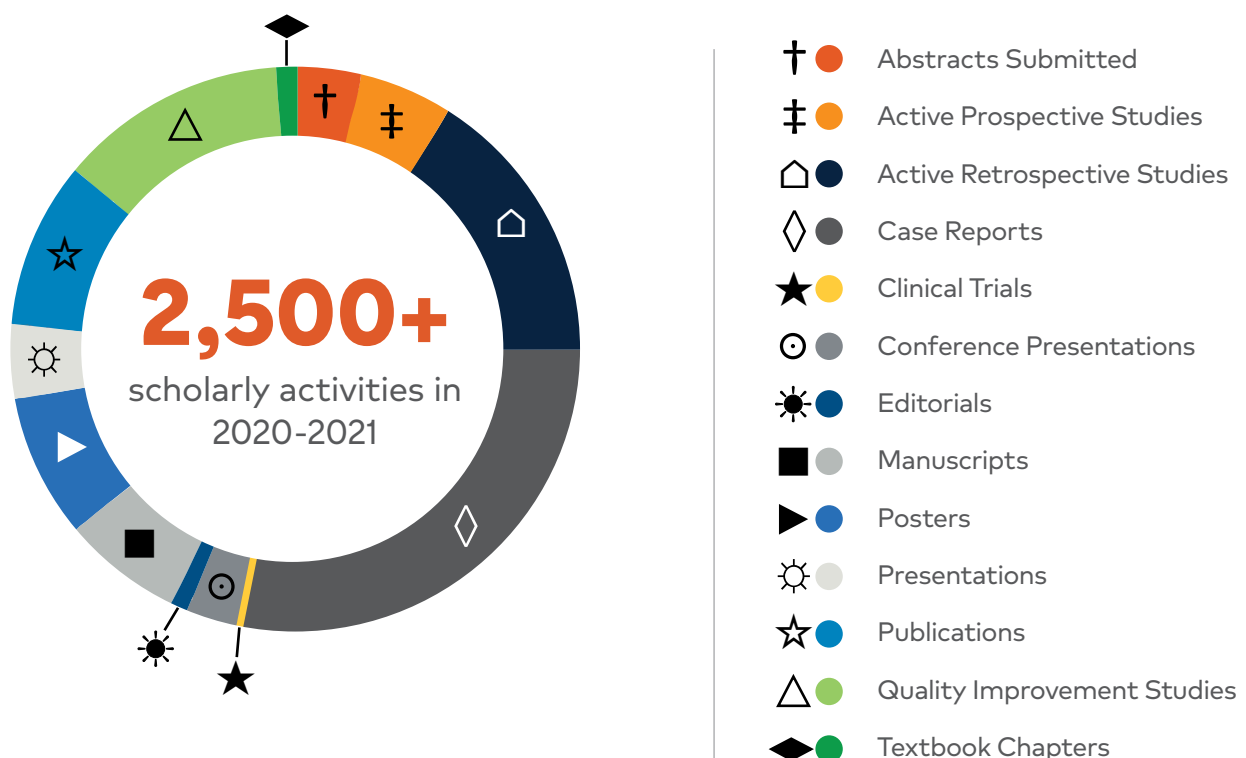

32+ million patient encounters
7.4 million emergency room visits
215,000+ babies delivered

HCA Healthcare Graduate Medical Education is a leader in clinical experience.

- Nationally known physician expertise across the country
- Investments in facilities allowing the advancement of patient care
- High emphasis on simulation results and low patient incidents
- Higher patient touch than academic facilities
- Annual collaborative mass casualty event team training

A commitment to scholarly activity

Based on more than 32 million patient encounters each year, our scholarly activity bridges the gap between compelling evidence and exceptional patient care.

Our experiential learning is rooted in evidence-based medicine that leads to innovative, **real-world patient health solutions**.

Merging the rigor of **ACGME** accreditation with high patient touch, our residents and fellows deliver evidence-based care that demonstrates our mission to care for and improve human life.

We offer **National Grand Rounds** that leverage accomplished clinical expertise from across HCA Healthcare, bringing the nation's leading medical experts to our residency and fellowship programs.

Influential Collaboration

HCA Healthcare residents and fellows have access to talented, highly skilled teams of faculty, industry experts and dedicated researchers to guide them through their journey. Residents and fellows produce evidence that drives future practice by leveraging HCA Healthcare's national clinical data warehouse – the heart of our data ecosystem.

HCA Healthcare Scholarly Commons is a platform to collect, share and publish the variety of academic work created by the Graduate Medical Education community. During 2020, readership of those works eclipsed the 25,000 mark. Included on this platform is the **HCA Healthcare Journal of Medicine**, a peer reviewed scientific periodical focused on innovation, enhanced quality and developing new knowledge in clinical care and medical education for the benefit of all patients. In its first year of publication, the journal disseminated 86 articles in six issues as well as a seventh special issue on the COVID-19 pandemic.

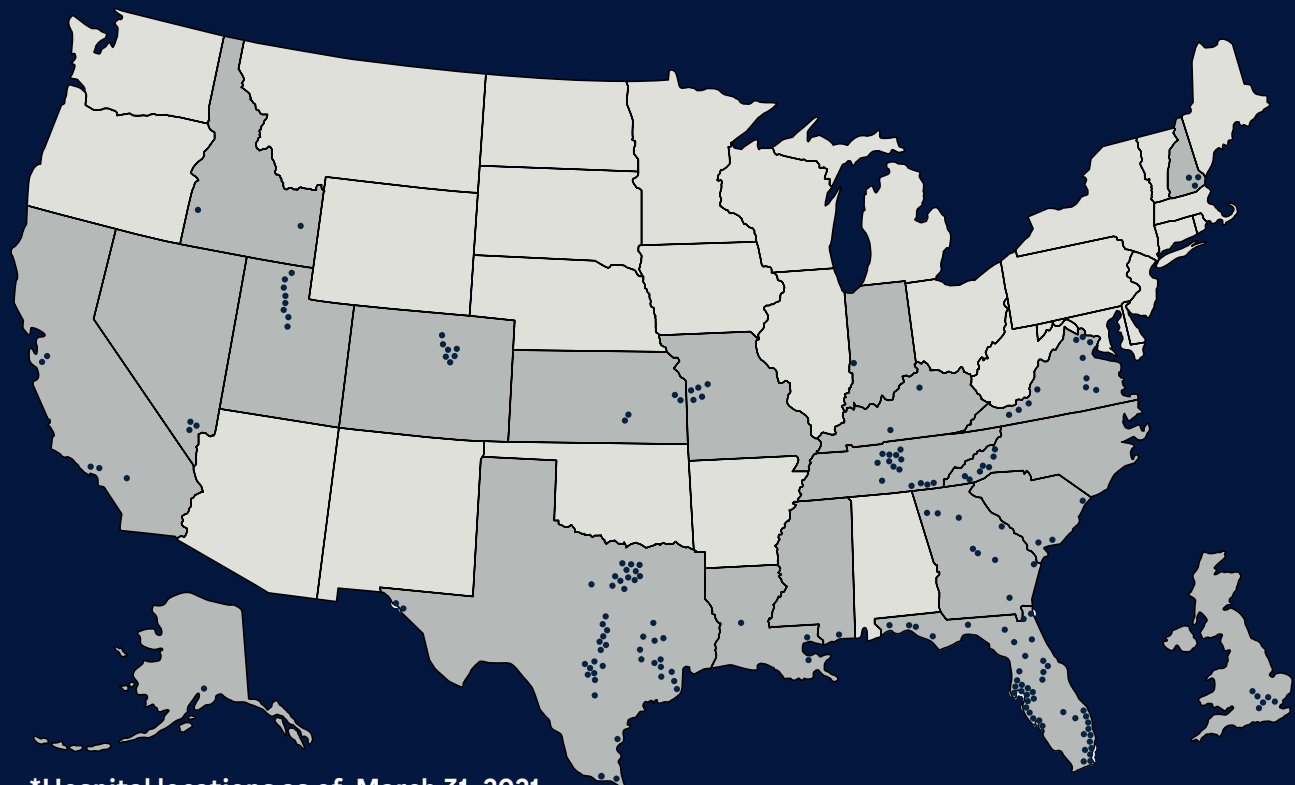

About HCA Healthcare

HCA Healthcare is one of the nation's leading providers of healthcare services and is comprised of 186 hospitals and more than 2,000 sites of care including surgery centers, freestanding ERs, urgent care centers, diagnostic and imaging centers, walk-in clinics and physician clinics in 20 states and the United Kingdom. With its founding in 1968, Nashville-based HCA Healthcare created a new model for hospital care in the United States.
